THE FIRM

WHO WE ARE

E. O. Ameh & Co. is a professional services firm providing audit, tax, accounting, and advisory services to businesses, entrepreneurs, and individuals. Our mission is to deliver the highest quality services in a timely, efficient, and innovative manner. Through a professional team that genuinely enjoys working together to exceed our clients' needs.

We have now expanded into Responsible Data & AI Management, a strategic service line that, responsibly manages, govern and protects our clients' data, governs their AI, and builds the trust those regulators, boards, and customers demand.

We are not just compliance advisors. We are builders, with the technical depth, regulatory fluency, and practical frameworks to deliver audit-ready responsible governance in weeks, not months.

OUR MISSION

Our mission at E. O. Ameh & Co. is to provide businesses, entrepreneurs and individuals with the highest quality accounting, auditing, tax planning and business advisory services combined with word-class Responsible Data and AI Management, delivered in a timely, efficient and innovative manner by a professional team that clearly enjoys working together to exceed their clients' needs.

OUR VISION

E. O. Ameh & Co. will be the leading professional firm reputed for Corporate Integrity, Excellence, Versatility and Total Quality Management for entrepreneurs and organizations seeking personalized value added services

OUR CURE VALUES

In order to accomplish our mission and vision statements, we need to provide superior client service on a consistent basis to all clients at all times and to treat our employees as our most valuable assets.

All of our employees are proudly committed to the following values:

1. Integrity: We do what is right, even when no one is watching.
2. Trust: We deliver sustainable value, that aligns with our client strategic priorities.
3. Excellence: We protect our clients' data, finances, and reputation with the highest ethical standards.
4. Innovation: We embrace technology, automation, and open-source tools to deliver value efficiently.
5. Accountability: We take ownership of our work, our decisions, and our impact.
6. Confidentiality: We safeguard the information entrusted to us, always.
7. Collaboration: We work as one team, with our clients and with each other.
8. Sustainability: We build frameworks that last, not quick fixes.

OUR APPROACH

- Our approach to undertaking assignments starts with gaining a good understanding of the client's business and the environment in which it operates. For this purpose, we normally conduct a brief but broadly based initial diagnostic review, which is aimed primarily at ensuring that the client's requirements are properly understood.

- Each step in an assignment is taken in an orderly fashion with particular emphasis on each step depending on the nature of the assignment and the client's precise requirements. If a multi-disciplinary approach is required, we would draw an appropriate staff from the relevant department of our practice. We identify the analytical methods necessary for the assignments and agree them with the client.

- A partner who monitors each stage of the work always heads our assignments. His job is to ensure that the resources and experience of our firm as a whole are deployed to the client's best advantage and that a top and first class service is delivered.

Our range of Services

In addition to the traditional accounting practices such as accounting, auditing and taxation, we also carry out consultancy work, such as forensic accounting and investigation, feasibility study, insolvency services, accounts reconciliation, investigation, client training courses, handling corporate issues with the Corporate Affairs Commission and company secretarial services.

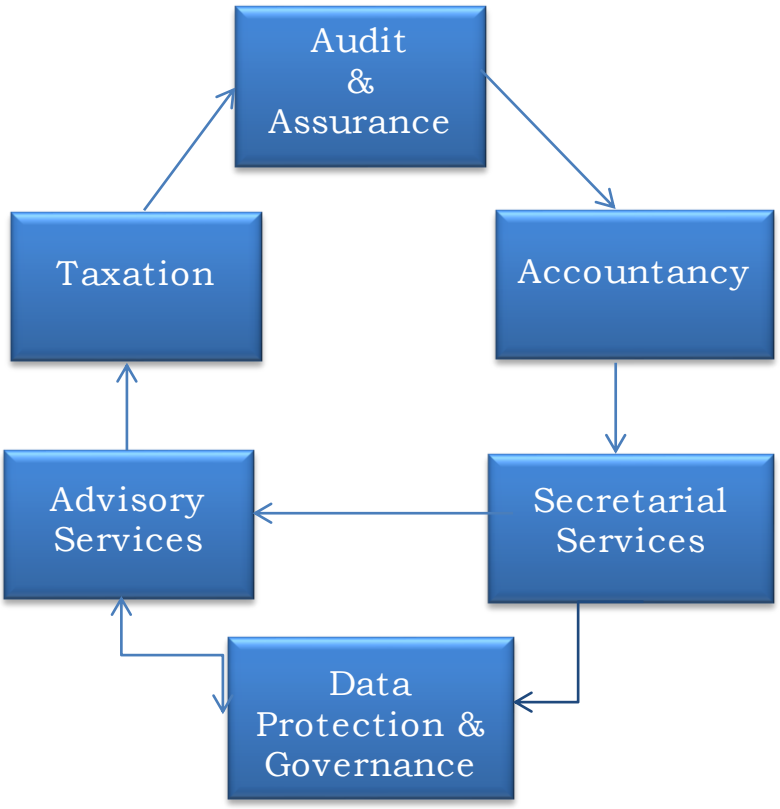

From 2026, following certification received, we entered into the new field of Data Protection, Compliance and Governance as well as Cyber Security.

Our solutions are aimed at developing task specialization, role-play capacity and key performance indicators to promote:

- Organisational efficiency
- Marketing, Data Research & Statistics
- Products & Services Adequacy
- Administration, Finance & ICT
- Human Capital & Resource Management
- Clients' Feedback Mechanism

To help organisations achieve their goals along the aforementioned key performance indicators, we are proactively set up along these core activities:

- Audit & Assurance
- Taxation
- Accountancy
- Advisory Services
- Secretarial Services
- Data Management & AI Governance

Audit & Assurance Services

We provide audit and a range of other assurance services designed to identify, manage and adapt to all types of risks. Our audit and assurance services cover:

- Audit & Assurance
- Business Valuation
- IFRS Support
- Controls and Systems Process Assurance (CoSPA)
- Forensics

1.0 Audit & Assurance

We believe in the credibility and transparency in financial reporting. Our professionals are committed to delivering reliable and independent audit reports. Fulfilling this commitment to maintaining high audit quality requires vigilance in making sure our audit complies with changing regulations and professional standards. We adopt the E.O. Ameh & Co. systems approach in every audit. This audit approach enables us to develop an effective and efficient audit plan that focuses our audit work on high-risk areas. It also enables us to determine client's needs, expectations and professional service requirements so that we can prepare and execute an appropriate client service plan that will enable us to consistently exceed the expectations of our client.

1.1 Business Valuation

Your Business valuation is used by financial market participants to determine the price they are willing to pay or receive, to effect a sale of a business. At E.O. Ameh, we help you set up processes and procedures to estimate the economic value of your business. We have experienced personnel who are able to help you make well informed decisions in any business sale transaction.

1.2 **IFRS Support**

Nigeria has adopted International Financial Reporting Standards (IFRS).This poses significant challenge to preparers and users of financial statements.

To address this challenge, E.O. Ameh & Co. provides the following services:

- IFRS Capacity Building
- IFRS Transition Support
- IFRS Accounting Systems
- IFRS Software
- IFRS Advisory Services

1.3 **Controls and Systems Process Assurance (CoSPA)**

In today's business world, Information Technology in financial reporting environments are becoming increasingly complex while even greater reliance is being placed on the information produced by these systems and processes. In addition, new regulations in many countries have put a greater emphasis on internal controls and often require independent assurance of the effectiveness of internal controls.

Our CoSPA service ensures that risk of internal controls failures are reduced to the barest minimum. We pay attention to the design, documentation and operation of controls which are critical to ensuring the accuracy and timeliness of information used for financial reporting and management decision-making.

Our service covers:

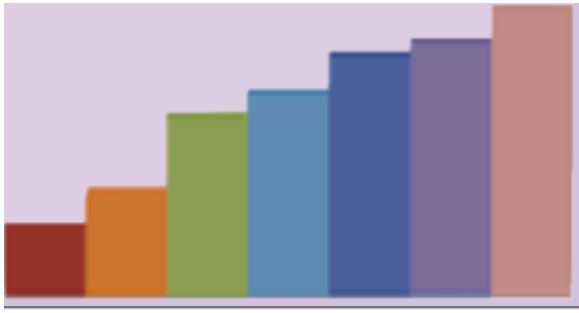

- Risk Assurance
- Enterprise Risk Management
- Evaluation of Control Activities and Environment

1.4 **Forensics**

We provide independent, proactive and responsive services through our investigative, accounting and technology capabilities in order to help clients protect their business from fraud, misconduct and non-compliance with laid down policies.

Our services include:

- Fraud Investigations
- Finance & Enterprise Data Analysis
- Hidden Assets Investigation
- Financial Statements Fraud
- Bank Charges Review
- Mapping and Tracing of Funds

Tax Services

2.0 The firm offer comprehensive tax advisory administration and tax planning with the various tax authorities to minimize tax liability through the use of all available allowances, deductions, exclusions, exemptions etc. Our range of services includes:

2.1. **Tax Health Check**

Our tax health check service is designed to assess the tax health and risk that a company may face due to changes in tax law and business environment. An extensive experience and in-depth knowledge of tax laws as well as other business regulations are required to perform and deliver an effective tax health-check. At E.O. Ameh & Co., we possess this.

2.2 **Compliance**

Statutory tax compliance is becoming increasingly complex. Consequently companies are struggling to do more with less. This has resulted to a greater risk of compliance failures and minimal time for strategic forecasting or planning. However, in order to overcome these, we at E.O. Ameh & Co. are ready to use our experience and expertise to provide tax compliance services to clients.

2.3 **Transfer Pricing**

Transfer pricing is one of the most important international tax issues facing multinational and other related companies. Our multidiscipline team of professionals has been involved in large and complex transfer pricing audits and dispute resolution. In addition, our transfer pricing practice has accumulated significant experience helping clients obtain advance pricing agreements. We can certainly avail you with this experience.

2.4 **Tax Planning and Minimization**

We perform a logical analysis of a financial situation or plan from a tax perspective, to align financial goals with tax efficiency planning. The purpose of tax planning is to discover how to accomplish all of the other elements of a financial plan in the most tax efficient manner possible.

Our Tax Planning team considers tax costs in different investment structure as well as possible tax payment in future operation.

4.1 **Procurement of Pioneer status for companies**

The most important advantage of acquiring pioneer status is the total or partial exemption from income tax for a period of five years. The exempt incomes are credited to the exempt account from which exempt dividends are distributed to the shareholders of the company.

4.2 **Regulatory registrations with ITF, NSITF, PENCOM, FRC.**

In general, compliance means conforming to a rule, such as a specification, policy, standard or law. Regulatory compliance describes the goal that organizations aspire to achieve in their efforts to ensure that they are aware of and take steps to comply with relevant laws, policies, and regulations.

4.3 **Insolvency and liquidation**

Insolvency can be considered a financial "state of being", when a company is unable to pay its debts or when it has more liabilities than assets on its balance sheet, this being legally referred to as "technical insolvency". Liquidation is the legal ending of a limited company. At E.O. Ameh we help organisations to carry out a wide range of duties in relation to insolvent individuals and companies.

4.4 **Procurement of Business Permits and Expatriate Quotas**

We help organisations in handling the affairs related to procurement of expatriate quota and renewal requires time and expertise and it is of vital importance that all affairs with the procurement process be managed professionally and correctly.

4.5 **Procurement of Trademarks and Patents and Designs Certificates**.

We help organisations in handling the affairs related to procurement of trademarks, patents and designs certificates.

4.6 **IT and installation of Accounting Softwares.**

We offer enterprise accounting solutions. These products support the needs of manufacturing, distribution and service companies, and offer specialized capabilities for specific manufacturing modes and industries.

4.7 **Strategy & Research**

In business, corporate strategy refers to the overall strategy of an organisation that is made up of multiple business units operating in multiple markets. It determines how the corporation as a whole supports and enhances the value of the business units within it; and it answers the question, "How do we structure the overall business, so that all of its parts create more value together than they would individually?"

In today's rapidly changing global economy, organisations need to define their road map. At E.O. Ameh, we will help you set up long-term strategic objectives of your organisation. Our team of experts will work to choose the most appropriate course of action to help you realise your organisational goals and objectives, thereby achieving the organisational vision.

4.8 **People & Organisation**

When it comes to business, optimising the effectiveness, skill and motivation of your people and organisation is an essential priority. At E.O. Ameh & Co., we help organisations align staff goals with the overall corporate strategy. We will help you engage high potential personnel to run an effective organisation with engaged, empowered and motivated people. Our services include:

- Talent management Organisational development
- Performance management and control

4.9 **Business Process Improvement (BPI)**

BPI is a strategic planning methodology aimed at identifying the operations or employee skills that could be improved to encourage smoother procedures, more efficient workflow and overall business growth.Our BPI service evaluates current business process of an organisation, for the purpose of identifying enhancements and opportunities for improvement.

In order to enhance your business efficiencies,you need to understand where you currently stand. Our BPI begins with an evaluation of your current practices which is done through a thorough analysis of your people, process & technology. E.O. Ameh expert BPI will help to streamline your operations and eliminate process inefficiencies.

Our BPI service include:

- Business planning
- Process mapping
- Business process review
- Business process re-engineering
- Business transitioning

4.10 **Retail Consulting**

This is a process of determining retail strategies for stores or other types of retail businesses. We look at your supply chain management system, inventory analysis stocking and reorder levels and provide our clients with a complete retail store planning service by helping you unlock latent potentials. Once we understand what your business aims and objectives are, we set to work, planning an effective store concept and layout that will work for you.

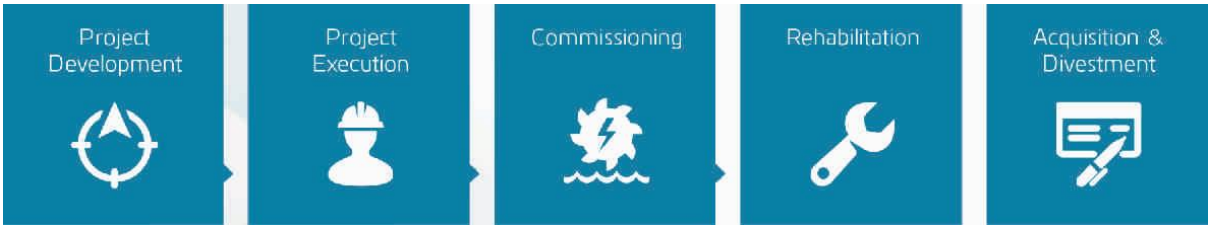

We also maintain a personal retail consulting suite where our team of investment and estate advisors help maximize your personal income and institute effective cost control mechanisms with schemes like the group insurance and employee benefits.

4.11 **Corporate Finance**

This is the area of finance that deals with the sources of funding and the capital structure of corporations and the actions that managers take to increase the value of the firm to the shareholders as well as the tools and analysis used to allocate financial resources. It is basically the financial activities related to running a corporation.

At E.O. Ameh & Co., everything from capital investment decisions to investment banking falls under our domain capability.
